

MEETING AGENDA

Meeting called by: — Rania Ben Traki — **Meeting type:** — OnSite —

Date of meeting: — 07/05/2026 — **Location:** — OnSite —

Meeting duration — 4h —

ATTENDEES
----- Amina Boujmil(Note Keeper) -----
----- Omar Riahi(devil advocate) -----
----- Rania Ben Traki(Moderator) -----
----- Ibtissem Ayedi(Speaker) -----
----- Mohamed Hamza Allani(technologist) -----
----- Nour Mokhtar(Time Keeper) -----
----- Maya Zahrouni -----

OBJECTIVE OF THE MEETING

To review the final integration status of the platform, organize the preparation of the remaining deliverables, and discuss the outcomes of the meeting with the project partner regarding the project concretization phase.

OPENING OF THE MEETING

- Presenter: Rania
- Brief introduction of the project team
- Overview of meeting goals

CONTEXT

As the project approaches its final phase, the team organized a coordination meeting to ensure the completion of integration tasks and align efforts on the final deliverables required for presentation, evaluation, and incubation follow-up.

During this period, the team also met with a project partner to discuss opportunities for concretizing the solution and exploring future collaboration perspectives.

PROGRESS UPDATE

- Final integration between the different AI agents is nearly completed
- Workflow orchestration and communication between modules have been stabilized
- Most technical functionalities are operational and internally validated

DELIVERABLES PREPARATION

- Commercial VideoDiscussion about the structure and scenario of the promotional video
- Identification of key features and innovation points to highlight
- Planning of demonstration sequences and platform showcase
- Final ReportReview of remaining sections to finalize
- Alignment on formatting, technical explanations, and documentation quality
- Redistribution of remaining writing and correction tasks among team members

PARTNER MEETING

- The team met with a project partner to present the current state of the platform and discuss possibilities for real-world deployment and collaboration.
- Positive feedback was received regarding:
 - The innovation aspect of the project
 - The intelligent multi-agent architecture
 - The practical applicability of the solution
- Discussions were initiated concerning:
 - Future development perspectives
 - Potential deployment scenarios
 - Long-term collaboration opportunities

KEY DISCUSSION POINTS

- Importance of delivering a professional and coherent final demonstration
- Need to ensure consistency between the report, commercial video, and platform functionalities
- Discussion about transitioning the project from prototype stage to a more concrete operational solution

DECISIONS

- Prioritize completion of the commercial video before final submission deadlines
- Finalize the report collaboratively with unified formatting and terminology
- Continue discussions with the partner regarding project concretization opportunities
- Freeze major technical modifications unless critical issues are identified

NEXT STEPS

- Complete editing and validation of the commercial video
- Finish and proofread the final report
- Prepare the final demonstration environment
- Conduct final system validation tests
- Follow up with the partner regarding future collaboration opportunities
