----- Omar Riahi (Time Keeper) -----

OBJECTIVE OF THE MEETING

The purpose of the meeting was to accomplish tasks related to the Engage Phase and Investigate Phase. The team focused on identifying the Big Idea, the Essential Question, and the Challenges for the project.

WORK BREAKDOWN AND GROUP DIVISION:

To accelerate the workflow, the team decided to divide into smaller groups. Each group took responsibility for a specific task to efficiently move forward with the project.

SEARCH FOR PARTNERS

The team started by identifying potential partners who could assist with understanding certification processes and key concepts in the domain. The goal was to find reliable partners for collaboration in the future stages of the project.

GUIDING ACTIVITIES

The next step involved organizing and conducting guiding activities to help define and refine the core aspects of the project. These activities included researching various certification requirements and gathering insights from experienced professionals.

CONTACTING PEOPLE AND AWAITING RESPONSES

After conducting the guiding activities, team members reached out to several individuals and organizations for further input and feedback on the project. We are currently awaiting their responses, which will inform the next steps in our planning and decision-making process.

Meeting conclusion:

The meeting concluded with the team agreeing to follow up with the contacts and continue working on the next steps once the necessary feedback has been received.
