SDGS

Problem Evidence

Organizations update procedures and documents only before audits instead of continuously.

Documentation

Organizations **lack clarity** on ISO requirements and struggle to **maintain** compliance without external support.

Traceability

There is no reliable system to track who modified a document, when, and which version is valid.

certification

Structure

Organizations lack standardized processes, leading to inefficiency and dependence on external providers.

Statistics

25% of organizations with weak boards or no audit committees have qualified audit reports;
